TRSTXCYBER

MONITORED™

MANAGED CYBERSECURITY

24/7 Protection for Small Business.
Monitored. Managed. Always On.

TRSTXCYBER Monitored delivers enterprise-grade security monitoring and protection — without the cost of an in-house team. Built for businesses of two or more that want serious protection, fast.

WHAT'S INCLUDED EVERY MONTH

24/7 MDR & SOC
Real-time detection, day and night.

Endpoint Protection
Protects devices and cloud apps.

Enforced MFA
Blocks access from stolen passwords.

DNS Protection
Blocks malicious & phishing sites.

Cloud Backup
M365 & Google Workspace backup.

Security Reporting
Monthly summary of threats blocked.

Cyber Warranty
Backstop for covered incident costs.

Continuous Security Monitoring
Field Effect monitors your security environment 24/7.

CYBER INSURANCE ESSENTIALS
Monitored helps address key cybersecurity controls commonly evaluated by cyber insurance providers.

MORE THAN SECURITY SOFTWARE

Real protection. Backed by real people.

TRSTXCYBER Monitored pairs security technology with continuous monitoring and reporting — backed by the team managing it every day.

IS MONITORED RIGHT FOR YOU?

Monitored May Be Right for You If:

- You run a small business without a dedicated cybersecurity team.
- You want 24/7 protection without building an in-house SOC.
- You rely on Microsoft 365, Google Workspace, or cloud applications.
- You want stronger protection against phishing, ransomware, and credential theft.

Consider Monitored Pro+ If:

- Your business relies on multiple cloud platforms or third-party applications.
- You need broader visibility beyond endpoints.
- You want network and third-party cloud application monitoring.
- You want the additional $100,000 cyber warranty included with Pro+.

WHAT PROTECTION LOOKS LIKE

01

Protect

Security controls are deployed across your environment.

02

Monitor

Threats are continuously monitored through our security stack.

03

Report

You get ongoing visibility through regular security reporting.
